JOH WORK Nashville Sewing Machine Company Nos. 71 1-2 EAST SIDE OF THE PUBLIC SQUARE, NASHVILLE, TENNESSEE.

THESE Machines are now very justly considered to be the A best in use, having the advantage of all others in the simplicity of their construction, the speed and beauty of their work, and the great strength of their seam. Unlike any others in use, they farm a seam with two continuous threads from ordinary spools of cotton, silk or lines—making a knot t every stitch which prevents the work from ripping under ny circumstances whatever.

The first and highest premiums have been awarded to these Machines at all the leading Fairs throughout this country and Europe, and the inventor now rejoices in the more substantial reward of the largest patronage ever bestowed upon any Sewing Machine in Europe or America.

They are of the highest finish, and of every variety of size and style, and adapted to all the wants of the Sewing community. They are all secured exclusively to the proprietors by le

these machines, and most respectfully invite the public generally to call and see them in use, and give them a careful examination and be satisfied that the half has not yet been

ror the States of Tennesse, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana. We have tasted the Pump in all its recommended uses for ordinary purposes—in wells, and as fire engines; and hesitate not to say that it is superior to any pump now in use. It is simple and plain in its construction; can be taken to pieces or put together by any ordinary man, black or white, in half a minute. There is not a screw or bolt about the pump; there is the least imaginable friction—hence its durability. It is almost impossible for it to get out of fix by usage.

by usage.
When used for a well or cistern it can be converted into a Fire Engine in one minute, and by one man water can be thrown over the tallest houses in the country. It is invalu able as a Fire Engine, and especially in the country and

pumps. It can be used for either not or cold water.

Having fully satisfied ourselves as to the capacity, value and utility of the pump, we are ready to make sales of the above territory by counties or States (except the Western District of this State, which has been sold.) We confidently recommend the Pump to the citizens of the States mer The Pumps are cheap, and therefore within the reach of

TO INVALIDS.

TO INVALIDS. N this country the sources of vitality are coad startly suffering from atmospheric inflences, cause by sudden changes of weather and the variable character by sudden changes of weather and the variable charactar of the seasons, especially spring and autumn. These complaints and all forms of disease natural to the country, are more easily controlled by simple prescriptions, such as so wonderfully preserved the health and lengthened the lives of the aborigines and the early settlers of America, than they are by the powerful doses of Allopathy, the Dranchings of Hydropathy, the hot and pungeot doses of the Thompsonian school, or the delicately medicated pallsts of Hompsonian

Thompsonian school, or the delicately medicated pallsts of Homespathy.

These valuable and effective, jet simple medicinal proparations, are found in a greater degree of purity, combined in more scientific proportions, and compounded with greater skill, in the GRAFENHERG FAMILY MEDICINES, than in any others ever offered to public notice. They consist of eleven different remedies, all of which have the sanction of high medical authority, and the approval of hundreds of thomsands who have been relieved by their use; among whom are found the names of eminent elergymen, juriste, statesmen and more than a Thomsand Physicians are every section of the Unifed States.

THE GRAFFENHERG MANUEL OF HEALTH—Paice 25 cents. This is a book of 500 pages, and it was written by several physicians, each prominent in the diswritten by several physicians, each promuent in the diseases mentioned, and all standing in the front rank of the medical profession. It is the most reliable book surpubushed, and it is directed of professions terms and written so that every one can understand it. No lamily

BANKERS AND EXCHANGE DEALERS,
Next Door to the Bank of Nashville,

NASHVILLE, TENN. They are all secured exclusively to the proprietors by letters patent, and are free from all legal controversy. Great pains has been taken to adapt these Machines to Plantation sewing, and they are now so simple, durable and easily run and tended by any person, that they are entirely beyond competition for this work or for the manufacture of heavy or light bags, for Corn or Wheat, no machinery has ever been invented to surpass them—any person after one hours practice can make from 400 to 700 corn sacks per dayon one machine. These machines are also equally well adapted to the manufacture of all kinds of clothing, coarse or fine, as well as general sewing, quilting, stitching, &c. These machines are so arranged as to make the stitch any length desired, and to sew with ease any and every seam in any garment, and the durability, regularity and beauty of finish, cannot be equalled by any work accomplished by the most skillful hands.
